

2001 Beechcraft King Air 350

N380KM, SN FL-321

2001 Beechcraft King Air 350

N380KM, SN FL-321

Airframe	<p>The King Air is currently completing upgrades from the tip to the tail – once complete N380KM will be better than it was when factory new!</p> <p>Completion of the aircraft is October 2021: the work being done includes upgraded engines and propellers; all new, modern glass panel; and fresh paint and interior!</p> <p>You won't want to miss this one!</p> <p>3,620 TTSN</p>
Engines	<p>All new Blackhawk PT6A-67A engines – The aircraft experiences a 60% Climb Rate increase and cruise in excess of 332 Knots</p>
Props	<p>New 5 blade MT propellers complement those new engines –Featuring increased thrust and cruise speeds, reduced noise and vibration, and 54 pounds weight savings from OEM props</p>
Exterior	<p>New paint by Elliott Aviation –Overall Matterhorn White with Midnight Blue, Pewter and Gold Metallic Accent striping</p>
Interior	<p>All new interior designed and installed at Premier Jet Center, including Elliott Aviation's LED, 350i style headliner!</p>
